I . Financial Status

Three Months Ended June 30, 2023
(FY2024/3 1Q)

- As the domestic stock market soared, the Nikkei Stock Average reached its highest level in 33 years due to factors such as the Tokyo Stock Exchange's request for improvement for companies with low P/B ratios, the prospects for the Bank of Japan's continued monetary easing, and the resolution of the U.S. federal debt problem, which contributed to investors' relief.
- The U.S. stock market remained steady, but the market rates lacked buoyancy.
